

Introducing

INOVA AZURE SECURITY ASSESSMENT

Keep your business safe

Get an insights into potential vulnerabilities and improvements in your Azure environment. You'll receive a report with specific tasks to execute in order to mitigate the business weaknesses and hidden security threats.

With Inova Azure Security Assessment, we take a four-phased approach to set your path forward

1

Identify

- Review your environment for potential threats and vulnerabilities
- Identify potential and possible attacks
- Review from certified Azure experts

2

Remediate

- Receive best practice recommendations tailored to your needs
- Get a plan to remediation with short term quick wins, as well as a plan for long term improvement

3

Prioritize

- Receive a sorted list of recommendations, highlighting the highest severity issues

4

Align

- Schedule training and consulting sessions to align your entire team to cybersecurity best practices

Duration:

The approximate duration of this assessment is 1-2 weeks.
