

MODERN WORK

Microsoft 365 Cloud Migration

Move smarter. Work better. Unlock the cloud.

Our **Cloud Migration Services** seamlessly transition you to Microsoft 365, the secure foundation for modern, collaborative work. Reduce IT overhead, boost productivity, and empower your team to work from anywhere. Your launchpad to a smarter, connected business.

Top Features

- ✓ **Flexible** We support all major email systems and migration paths
- ✓ **Expert Execution** Our Microsoft-certified consultants ensure a smooth process
- ✓ **Seamless Delivery** Fast, transparent migration with minimal downtime
- ✓ **Advanced Tools** Proven methods and platforms, also for complex scenarios
- ✓ **Enterprise Security** End-to-end data integrity and compliance standards

Still on local mail servers?

Let us take your business to the cloud, modern, secure, and built for collaboration. Book a consultation and start planning your move to the cloud.

Key Differentiators

-  Cut IT overhead and eliminate maintenance
-  Enable secure, flexible, modern collaboration
-  Unlock the full Microsoft 365 potential
-  Scalable, reliable, manageable cloud setup

Cloud Migration Types

- **Standard Migrations**
For simpler setups like IMAP/POP3, G-Suite Hybrid, or Hosted Exchange
- **M365 Tenant-to-Tenant**
Migration between Microsoft 365 environments
- **PST Migrations**
Manual export/import of user mailboxes (higher complexity)
- **Hybrid Exchange**
Splits mailboxes between on-prem and cloud for phased or regulated moves
- **Application-Assisted Migration**
Uses tools like BitTitan* for complex systems (e.g., Lotus Notes, Zimbra)

* If required, BitTitan licenses may need to be procured separately
