

# Microsoft Power BI Business Reporting

## Unlock your data advantage with Power BI.

Turn your business data into real-time insights with a fast, turnkey Power BI deployment. We connect your key systems, build custom dashboards, and automate reports, so you can focus on decisions, not data wrangling. Want to build internal expertise? Our optional training empowers your team to keep scaling.

### Top Features

- ✓ **Data Integration** Connect to cloud and on-prem sources like SQL, Excel, Dynamics 365, and more
- ✓ **Smart Data Prep** Clean, transform, and model data for better insights
- ✓ **Dashboards** Interactive views built around your KPIs and workflows
- ✓ **Reporting** Schedule refreshes and auto-distribute, no more manual work
- ✓ **Secure & Compliant** Keep data safe with role-based access and usage monitoring

You already have the data. Power BI makes it talk. Don't let Excel slow you down. Say goodbye to Excel chaos and hello to dashboards that drive real-time decisions.

## Key Differentiators

-  Dashboards live in days, not months
-  Tailormade for you, no templates
-  Trained team and ready to scale
-  Trusted by businesses for BI, analytics, and scalable IT solutions
